

Faculty of Architecture

at Wrocław University of Science and Technology is one of the best architecture schools in Poland. We are leading in rankings (Perspektywy, Builder) and our students were awarded in numerous international competitions like: Laka Competition'21: Architecture that reacts, German BDA – SARP Award, Architecture at Zero 2020, Concrete Architecture, RE-Stock London Housing Competition, and national contests for best graduation projects. This year's student projects were nominated for European competition Young Talent Architecture Award organized by Mies van der Rohe Foundation.

Our Architecture Master students can choose between programmes of:

Architecture / specialisation:

Architecture and Urban Planning

(both Polish and English languages)

Architecture and Preservation (Polish language)

and

Spatial Planning

(both Polish and English languages)

Creativity is more than welcome. Our students have an opportunity to cooperate with specialists of various disciplines. They can choose between various courses, creating their own paths. In their spare time students are offered activities in science clubs, workshops, summer schools and archaeological missions. Graduates of our Faculty are well-prepared for variety of careers offered worldwide and requirements of today's career market. Each year more than 80 former students join the Chamber of Architects and become licenced architects. We have educated generations of architects and urban planners which determine the contemporary image of cities, villages and buildings.

Computer Aided Design BIM 1 15+30h	Humanities 30h	
	Physics (acoustics) 15h	
Foregin languages 45h	Ecology 15h	
	Mathematical Modeling 15h	

GRADUATES

Just look at the variety of futures chosen by our graduates. Aren't they an inspiration?

Maćków

One of the biggest and most renowned architectural offices in Poland was established by Zbigniew Maćków – recently awarded the most prestigious national architectural prizes – who is a graduate of the Wrocław Faculty of Architecture. Just like the most architects working in this 50 persons team. They work on public buildings, housing, offices and urban plans – you name it. The practice is the synonym of success.

Buck Studio

Internationally renowned architectural studio specializing in interiors and design. Both founders were graduated from Wrocław Faculty of Architecture. Paweł Buck shares his passion and knowledge with our first grade students tutoring elementary design.

Onimo

Łukasz Jagoda with his team chose to build in scale. The models they make for architects and companies travel around the world projecting not only architectural future but also amazing craftsmanship.

CH+

A team of architects focusing mostly on socially responsible architecture and renovations. Their recent work includes cultural centres inspiring social activities in downgraded housing areas in Wrocław. Wojtek Chrzanowski's and Mikołaj Smoleński's diploma projects were among the best awarded in national competition in 2002.

Haudek

Anna Haudek – after graduating from our Faculty and practicing in Maćków architectural office – chose her very special way of career. She works on art installations, stage and graphic design and of course – small architectural projects. Her work is daring and subtle at the same time.

BudCud

Budcud is renowned, multidisciplinary office based in Kraków specializing in temporary architecture and urban strategies. Agata Woźnicza – one of two partners in the practice – was graduated from our Faculty and now is working on her Ph.D. here.
