

**CENTRALITY  
IN THE AGE OF  
DISPERSION**

Wrocław University  
of Science and Technology

## 2nd CALL FOR PAPERS

*What is special about centrality  
and dispersion today?*

*What is the current centrality/dispersion balance  
in urban development?*

*How can spatial management and urban decision making proceed in this complex  
and unstable environment?*

These are the main questions raised by the International Conference Centrality in the Age of Dispersion organized by the Chair of Urban Planning and Spatial Management, Faculty of Architecture, Wrocław University of Science and Technology, Wrocław, Poland.

The conference addresses the demand for a new approach in territorial governance, and calls to gather experts from various scientific disciplines to present their research on urban centres and discuss dispersion occurrences.

# CENTRALITY IN THE AGE OF DISPERSION
